WHO AM I?

I am a motivated individual with a passion for software development and a penchant for embracing new challenges. My journey began with a dedication to learning, which laid the foundation for me to embark on a career in software engineering. While I possess some experience in frontend application development, my primary expertise lies in implementing backend services, with a complementary focus on DevOps practices.

EXPERIENCE

Aug 2023 – now
part time

Backend Developer — ModernTV

Joining the team at ModernTV was both a challenge and an enriching experience. As backend developers, we maintained multiple projects, emphasizing high availability and scalability. This included managing a GraphQL API for delivering media content, crafting a content recommendation system, overseeing streaming services, and handling data aggregation tasks, among many others.

```
Go / GraphQL / gRPC / MariaDB / Redis / InfluxDB / NATS
```

Jan 2023 – now
contract

Seminar Tutor & Lecturer — Masaryk University

Fueled by the newly acquired knowledge, I was drawn to the idea of contributing to the educational journey of my peers. Not only that, this role allowed me to strengthen my technological knowledge but also my communication and mentoring skills.

```
Go / Rust / Java / Communication & Soft Skills
```

EDUCATION

Sep 2024 – now

Master's Degree: Software Engineering — Masaryk University

After finishing my bachelor's degree, I decided to remain at Masaryk University as continuing with the master's studies was a way to deepen further my knowledge regarding software development and other computer science-related topics.

Sep 2021 – Sep 2024

Bachelor's Degree: Programming and Software Development — Masaryk University

Pursuing a bachelor's degree in Software Development fueled my passion for technology and equipped me with a strong foundation in programming, software design, and project management. I developed analytical, problem-solving, and teamwork skills through hands-on projects and collaboration. This academic journey not only honed my technical expertise but also instilled a proactive approach to learning, enabling me to adapt to evolving technologies and contribute effectively to the dynamic field of software development.

HOBBIES

I have a deep passion for specialty coffee and craft beer, along with a love for staying active. Muay Thai and weightlifting are my go-to activities, but I also enjoy dabbling in the kitchen and riding my motorcycle whenever I get the chance.
